Built for How Banquets & Live Events Really Work

We are not a generic IT services company. We build deep, AI-first technologies engineered specifically to withstand the intense pressure and arrival surges of live luxury events.

1,200+
Real Events Supported
Field-tested across luxury banquets, conventions, and flagship property launches.

Patented Tech
Proprietary AI Vision
Years of core R&D building automated guest counting and arrival tracking.

Domain Depth
Hospitality-Grade DNA
We understand venue logistics, concierge flow, and queue psychology.

AI First
Zero-Failure Architecture
Offline-resilient stack functioning even when Wi-Fi drops completely.

Kaggle Top 1% Global Expert
6+ Yrs Applied Machine Learning & Analytics
Computer Vision Specialist

"Any technology company can build software. The hard part is turning venue standards into tools that work during a live event."

100% Operational Track Record

Brands That Have Worked With Us

Our systems have been trusted across India's foremost 5-star luxury hotel chains, marquee convention venues, and elite catering operators.

ITC Maurya & Royal Bengal	Andaz (Hyatt) Delhi	Radisson Udyog Vihar	Crowne Plaza (IHG) Gurugram

- WorldMark 6 benefits from systems already proven at hundreds of high-stakes luxury gatherings.

100% Operational Reliability

Mutual Non-Disclosure Agreement (NDA) First

Before any guest lists are touched, invitations structured, or hardware configured, we execute a legally binding mutual NDA with WorldMark 6.

Guest Confidentiality

WorldMark 6 hosts high-value corporate tenants, investors, and dignitaries. Their identities and direct contact channels remain 100% confidential.

- Legally Binding Protection

Zero Data Monetization

We never store attendee data longer than the event lifecycle, never cross-market, and never share records with any advertising network.

- Automatic Post-Event Purge

Clear Governance

Explicit roles and permissions. Only authorized WorldMark 6 event directors retain permissions to access full attendee audit records.

- Role-Based Access Control

Marketing Takeaway: You can assure your management, leasing directors, and invitees that privacy is guaranteed through standard enterprise agreements before any execution begins.

Option A or Option B: You Decide How Data Is Handled

WorldMark 6 can choose either a turnkey automated distribution or 100% in-house private distribution without sharing any guest contact records.

OPTION A • FULL-SERVICE

You Provide Attendee Data

Best for effortless automated dispatch and dual-channel concierge outreach.

- ✓ **Centralized Branded Invites:** Branded email passes dispatched automatically with entry QR.
- ✓ **Relationship Manager Packs:** Dedicated sub-folders with QR images & WhatsApp copy to forward 1-on-1.
- ✓ **Live RM Scorecard:** Real-time conversion tracking per Relationship Manager.

Ideal for: Multi-team marketing alignment with zero administrative overhead.

OPTION B • MAXIMUM PRIVACY

You Keep Attendee Data In-House

Best when organizational compliance prohibits sharing guest contact lists.

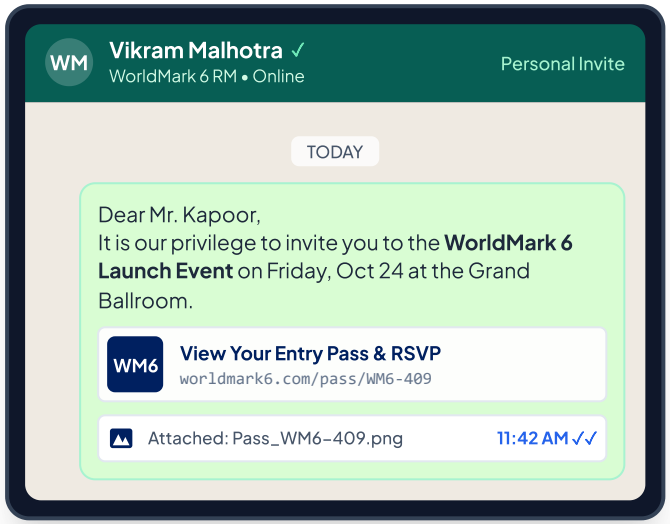

- ✓ **Pre-Generated Token Badges:** Bulk archive of unique cryptographic QR images (Pass #001 to #400).
- ✓ **Secure Pass Links:** Private web pass URLs ready to merge with your in-house email/CRM tools.
- ✓ **Zero External PII:** We never receive names or phones. The desk verifies purely anonymous tokens.

Ideal for: Strict institutional confidentiality or private investor lists.

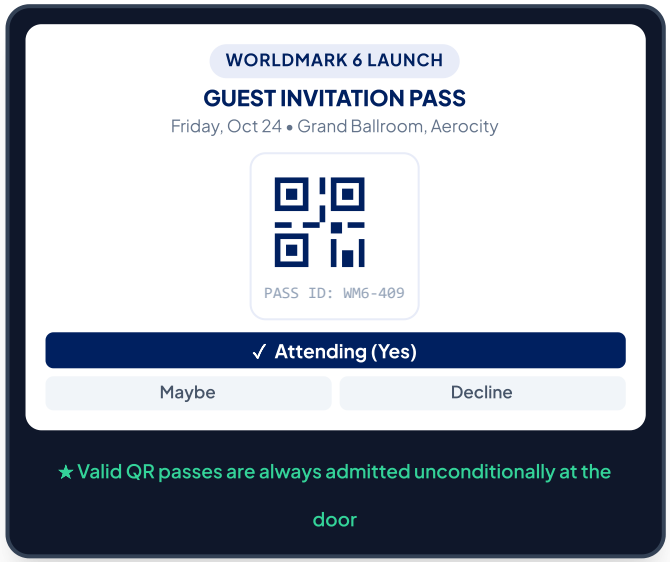

How Guests Receive & Confirm Their Pass

Relationship Managers personally send polished WhatsApp invites with an interactive pass link and attached QR pass image.

1 Relationship Manager WhatsApp Outreach

2 Guest Mobile Pass & 1-Tap RSVP

Sub-Second Verification & Event Wristband Issuance

Guests present their QR badge, verified in under 0.2s with zero attendee PII displayed. Valid scans receive the official **WorldMark New Delhi fabric wristband** for total venue re-entry freedom.

STEP 1

< 0.2s Laser Scan

High-Speed Optical Scan

High-speed 2D presentation scanners read phone QR badges or printed passes instantly with zero touch and zero delay.

14ms Optical Verification

100% Offline-Resilient (No Wi-Fi Drops)

- Sub-second queue clearance

STEP 2

Lane 01 • Active

Zero-PII Gate Screen

Volunteers see only pass validity. Names, phones, and corporate records are 100% hidden from onlookers.

GATE VERIFICATION

VALID PASS — ADMIT

PASS: WM6-409 LAUNCH ACCESS

- Ironclad attendee privacy guaranteed

STEP 3

Free In-Venue Flow

Official WorldMark Wristband

Seamless Re-Entry

Free movement to terrace or valet without re-scanning.

Discreet Helpdesk

Unrecognized passes route to concierge quietly.

- One-time desk scan • Complete freedom

- 100% Offline-Resilient: Keeps scanning active (<10ms) even if hotel Wi-Fi drops completely.

Live Intelligence to Measure Event Marketing ROI

The WorldMark 6 marketing team gets an executive dashboard displaying every critical metric in real time—from initial RSVP confirmations to actual physical venue turnout.

TOTAL INVITED	RSVP CONFIRMED	CHECKED IN (TURNOUT)	PEAK VELOCITY
400	**342**	**289**	**42 / 15m**
100% Passes Generated	85.5% Yes Rate	72.2% Live Attendance	Zero desk bottlenecks

Relationship Manager (RM) Scorecard

• Live Updates

RM & FOCUS GROUP	INVITED	RSVP	ATTENDED	TURNOUT
Vikram Malhotra (Institutional)	50	48	44	88.0%
Ananya Sharma (Corporate Tenants)	65	59	51	78.5%
Rohan Verma (Retail & Dining)	40	34	30	75.0%
Priya Nair (Chambers & Consulates)	35	31	28	80.0%

Updated automatically with each laser desk scan — **Reconciled Attendance**

Marketing Action Center

AUTOMATED

Instant VIP Arrival Ping

Relationship Managers receive an automatic SMS notification the moment their key anchor tenant checks in.

2:00 PM Unconfirmed Follow-Up

One-click filter for guests who haven't RSVP'd yet, allowing RMs to dispatch a polite afternoon WhatsApp nudge.

Live data streamed via encrypted WebSockets to executive tablets.

- Exportable to CSV anytime for instant CRM synchronization (HubSpot, Zoho, Salesforce).

Accurate Post-Event Debrief

Ready for WorldMark 6 Launch Day

Everything is engineered for speed, dignified guest arrival, and delivering concrete marketing proof points.

1. **Mutual NDA Sign-Off**
   Execution of enterprise confidentiality agreement protecting all attendee data.
2. **Select Data Pathway**
   Confirm Option A (turnkey email + RM packs) or Option B (100% in-house tokens).
3. **QR Passes & RM Packs**
   Generation of cryptographic passes, branded links, and RM WhatsApp bundles.
4. **Desk Setup & Live Run**
   Pre-event desk dry-run at WorldMark 6 with fast 2D scanners, wristbands & dashboard.

Turnkey Hardware Provided
High-speed 2D optical presentation scanners, staff terminal tablets, and stand mounts.

Dedicated On-Site Leads
WiserStack engineering leads on ground 2 hours prior to arrival through event wrap.

60-Min Reconciled Audit
Complete attendance and RM conversion CSV delivered to marketing leadership within 1 hour.
